

BOLD SOUL FULL MOON REIKI DRUM GATHERING

The time has come for the full expression of Full Moon ceremony to return. We are being asked to gather and remember the old ways of the heart, the call of understanding, compassion and connection to beauty. ALL are welcome to join us on the night of the Full Moon, as we gather in circle to share our prayers, to pray for the healing of the Earth Mother, her inhabitants, and to honor all creation and beauty. Uniting through the song of the drum, the Universal heartbeat.

Did you know that the Native Americans named each full moon to help them track the seasons as a representation of a time of year and the energies that came with it? July is known as the Full Buck Moon. This is the time when buck Deer grow new antlers! This month was also known as the Thunder Moon, because of all the storms that would take place in July.
